Successful application at the Plug & Work initiative

Dear Ms Hammer,

We are pleased to inform you that your application within the Plug & Work initiative was positively evaluated by the selection committee. Therefore, one year of rent-free office room has been awarded to you as well as a starter package containing e.g. intensive networking opportunities and a prize money to cover services and equipment acquisitions aiming at opening your office in Hannover.

An important feedback from the jury is that your plans regarding time and number of staff is considered as very optimistic. We expect a much slower progress and growth. So for your start hannoverimpuls will cover the rent for an office room of up to 30 m². This decision will be valid for six months until October 1, 2016. Your precise requirements will be discussed with our facility management.

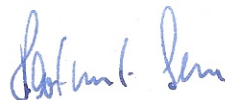

We would like to point out that the Plug & Work award is a so-called *de minimis aid* regarding to the rules of the European Commission. Possible consequences of this rule for the Plug & Work award for your company will be clarified by our facility management.

Please do not hesitate to contact me in case need arises. We look forward to welcome you at Hannover.

Yours sincerely,

Dr.-Ing. Adolf M. Kopp
Geschäftsführer
